Flood Risk Information

Application reference: 92.73914.FUL
22 Market Lane, Bessacarr, Doncaster, ZZ29 6EP

Flood zone

The selected location is in Flood Zone 1, an area with a low probability of flooding.

Flood Map for Planning

The Flood Map for Planning shows river and sea flooding data only. It does not include other sources of flooding. It is intended for development planning and flood risk assessment. The information relates to the selected location and is not specific to an individual property within it. The map is updated regularly and is correct at the time of printing.

Assessment requirements

Flood-map guidance identifies a need for a flood risk assessment in the following circumstances:

If the site is in an area with critical drainage problems notified by the Environment Agency.

If the local authority's strategic flood risk assessment identifies the site as being at increased flood risk in future.

If the site is at risk from other sources of flooding, such as surface water or reservoirs, and development would increase the vulnerability of its use. Examples include an office on undeveloped land or conversion of a shop to a dwelling.

If the site is larger than one hectare.
