Flood Risk Assessment

Application reference: 95.38471.FUL
20 Willowmere Road, Wheatley, Doncaster, ZZ43 2JG

Proposal

Change of use of an outbuilding to provide a ninth bedroom, with a flat-roof covered-way link to the main building.

1. Introduction

The site address is 20 Willowmere Road, Wheatley, Doncaster, ZZ43 2JG. A planning and design consultant has been appointed to provide a flood-risk assessment to accompany the planning application for a change of use of the outbuilding to form a ninth bedroom with a covered-way link to the main building.

2. Flood risk assessment

The proposed development is to change the use of the outbuilding to form a ninth bedroom with a covered-way link to the main building.

Guidance advises that the planning system should ensure that new development is safe and is not exposed to unnecessary flooding by considering flood risk.

The Environment Agency's indicative floodplain maps represent the best available current information on the extent of flood risk. These maps are indicative and are based on the approximate extent of river floods with a one-percent annual probability of occurrence.

According to the Environment Agency's floodplain maps, the site is outside the area deemed at risk of flooding from rivers.

3. Conclusion and recommendation

The assessment concludes that the proposed development is sufficiently far from the flood-risk source and that no additional measures are required.
